

A cover for iPhone 4/4s entirely made in Italy with high quality carbon fiber. Lightness, strength, elegance and technology for the best protection.

Carbon fiber is a lightweight, solid and fascinating material that requires a careful and elaborated handling as that of the master craftsmen who produce this beautiful collection named True Carbon. These protective covers are unrivalled for their lightness and resistance against bumps and scratches, but especially in terms of design. The quality of these products is 100% guaranteed by our Made in Italy production: Carbon cover is the best cover on the market!
